# DEPARTMENT OF THE ARMY HEADOUARTERS 4TH INFANTRY DIVISION APO San Francisco 96262

AVDDH-GC-P

13 June 1968

SUBJECT: Combat Operations After-Action Report

Commanding General 4th Infantry Division APO San Francisco 96262

- 1. (U) NAME AND TYPE OF OPERATION: Operation MATHEWS. Offensive Operations.
- 2. (U) DATES OF OPERATION: 242000 May 68 to 121500 June 68.
- 3. (U) <u>LOCATION</u>: Kontum Province, RVN. Maps, Vietnam, scale: 1/250,000, sheets No 48-4, 48-8, 49-1, 49-5. See Incl 1, Operations Overlay.
- 4. (U) CONTROL HEADQUARTERS: Headquarters, TF MATHEWS.
- 5. (U) REPORTING OFFICERS:
  - a. BG Don R. Hickman, Commanding General, TF MATHEWS.
  - b. COL Joseph Fix III, Commanding Officer, 1st Bde, 4th Inf Div.
  - c. COL Lawrence L. Mowery, Commanding Officer, 3d Bde, 101st Abn Div.
- 6. (U) TASK CRGANIZATION: Incl 2.
- 7. (C) <u>INTELLIGENCE</u>:
  - a. Enemy Situation Prior to Operation MATHEWS.
- (1) In late April, Headquarters, NVA 325C Division, with at least two subo inate regiments, moved into the Tri-border area west of BEN HET. It began conducting operations in early May, the rost significant being the 10 May attack on C and D/3/8 Inf at FSB #25. Intelligence gained from PWIs, ralliers and documents during the first three wasks in May identified the 325C Division and its subordinate regiments, 101D and 95C, with a total strength of at least 6000. In addition, it was learned that the 325C Division probably possessed armaments not previously employed by the NVA in the 46h

HQ and Support K-33 Bn	<b>2</b> 00 300	Tri-Border Area YB 896179

- b. Enemy Activity During Operation MATHEWS
- (1) On 25 May 2/C/2/1 Cav made contact on Hwy 512 (YB 903274) with an unidentified enemy unit which attacked from the northwest, resulting in 47 NVA KIA. On 25 May at FSS 29 (YB 939223), A and C/1/8 Inf were attacked from the south, south-southwest and west by elements of the K-4 Ph, 950 Regt, resulting in 149 NVA KIA.

On 27 May reliable intelligence reports indicated the movement of an unidentified NVA division headquarters element into the vicinity of DAK PEK Special Forces Camp. This division was believed to be the 2nd NVA Div, which had overrun two Special Forces Camps just north of the 4th Division 400 during the period 9-11 May. It was not known that elements on the division accompanied the headquarters element. TASK FORCE MITHEMS instituted a sustained air strike effort in the area, in conjunction with reconnaissance in force by two battalions of the 3d Bde, 101st Abn Riv. Subsequent reconnaissance and other intelligence indicated that the enemy force had apparently withdrawn temporarily into Lacs.

On 30 May on Hill 990 (YB 817248) D/3/12 Inf was attached from the north, northwest and west by a large enemy force, believed to consist of elements of the K-1 Bn, 101D Regt, resulting in 43 MVA KIA (BC). It was believed that the enemy's camualties were at least three times as high as the body count, but he was able to remove most of them unform they could be counted. Or 3 June, at YB 79274, 1st Battalion, 35th Infantry was attacked from the morth, west and south by an estimated enumy battalion. Sweep of the area around the perimeter found 4 NVA KIA (BC) and many parts of bodies and drag marks. Subsequent search of a bunker complex which included a modical facility at YB 7827 revealed 18 additional NVA bodies in shallow graves. This attack was the last offensive action by the 3250

AVDNI\_GC\_P

SUBJECT: Combat Operations After-Action Report

13 June 1968

Div; following it the enemy began a gradual withdrawal toward the border. The 101D Regt is believed to have withdrawn northwest of Hwy 512 into Laos, while the 95C Regt moved southwest of Hwy 512 into Cambodia. On 4 June on Hwy 14N (ZA 209950) a convoy was ambushed by elements of the 4th Dn, 24th Regt. The convoy was relieved by elements of 2/1 Cav, resulting in 39 NVA WIA. Identification of the 4th Bn, 24th Regt in the ambush area by captured documents confirmed the movement of this unit into the area north of KONTUM City near Hwy 14N. The 24th Regt continued to constitute a significent threat to friendly lines of communication in AD MATHEWS between KONTUM City and TAN CANH.

On 10 June DAK PEK Special Forces camp and B and D/1/22 Inf received intense attacks by fire, in which the enmey employed 60 and 82mm mortar fire, 75mm RR fire, and 122mm rockets. In addition, B/1/22 Inf at YB 910677 received a ground assault with small arms, grenades, and flamethrowers. The attacking force was probably a reinforced company. The size of the unit making the attack, as well as the weapons employed in the ground attack and attacks by fire, indicate that major elements of the 2d NVA Division has probably returned to the DAK PEK area to renew offensive.

(2) Enemy Compostion, Disposition and Strength Encountered During Operation MATHEWS:

UNIT	STRENGTH	DISPOSITION
325C NVA Div 101D Regt 95C Regt 120th Sapper En	14 <b>3</b> 0 1425 125	YB 8124 YB 8322 Both of the above locations

40th Arty Regt K-33 Bn	300	YB 9216

- c. Characteristics of the Aren of Operations:
- (1) Weather: Almost every day of Operation MATHEMS saw heavy rainfall; normally a light drisale occurred in the morning, giving away to numerous afternoon rainshowers. Scattered low clouds, bases of 300 to 500 feet, and scattered to broken clouds above 1000 feet were experienced during early morning hows. Broken cumulus and scattered cumulonimbus

AVIDH-GC-P 13 June 1968 SUBJECT: Combat Operations After - Action Report

and ceilings of 1000 feet (obscuring some peaks) occurred during late afternoons and evenings. Several fogy mornings limited visibility to 3 fogsy mornings.

- (2) Terrain: The western portion of KONTUM Province from the border to the eastern end of AO MATHYES is characterized by rugged mountains surrounding a small central basin area. The highest peaks reach over 1400 meters while ranges in the west and south average 1035 meters. Vegetation in the mountainous areas consists of very heavy double to triple canopy forest. The undergrowth in most areas is very thick brush mixed with bamboo. Some of the higher elevations have very light undergrowth. In the mountainous areas, there are scattered out-croppings of mixed large stones and stone cliffs. There are natural stone caves in such areas. Suitable natural landing zones do not exist in the mountainous areas. The central basin area has moderate relief averaging from 650 to 660 meters. Vegetation varies from single canopy heavy forest with very thick undergrowth to scattered low trees with thick grass and mixed brush undergrowth. Lower areas near streams have heavy brush gress. Large stands of bamboo are scattered throughout the basin area. Suitable natural landing zones can be found in some areas. Principal drainage is provided by the DAK POKO River, which flows south through the area. Many smaller tributaries dissect the entire area. Deep ravines are found throughout the mountainous area while rice paddy choked streams meander and criss-cross through the basin area.
- (a) Observation and fields of fire: Observation and fields of fire are extremely limited in the mountainous areas due to the very heavy vegetation. Some vantage points, however, do exist which permit observed direct and indirect fire into the low areas. Observation improves in the lower areas and along the DAK POKO Valley where scattered open areas and lighter vegetation offer less restricted fields of fire.
- (b) Cover: Good cover is available throughout the mountainous area where many deep ravines, large rocks, heavy forest, and natural caves provide protection from both airstrikes and artillery fire. In the central basin area, cover from indirect fire and airstrikes can only be obtained from bunkers and tunnels.
- (c) Concoelment: Concoelment is excellent in the heavily forested mountainous areas; air observation of ground activity is impossible except in areas where heavy bombing has removed the vegetation. The central basin area provides much less concealment; air observation varies from good in the lightly forested areas to axcellent in the open areas.
- (d) Obstacles: The majority of the AO, except for the basin area east and south of BEN HET, is characterised by steep (30%) slopes, rain forests, and dense vegetation. In the eastern section of the area, the DMK PCKO Theorem prosents a formidable berrier to vehicular and foot traffic. The bemboo in

AVDOH-OC-P

3 June 1968

SUBJECT: Combat Operations After - Action Report

the area east and south of HEN HET is thick end difficult to traverse. Conditions greatly restrict foot movement to existing roads and/or trail networks and for all practical purposes channelizes vehicular movement to Highway 512.

- (e) Key Terrain: In addition to friendly fire bases the following areas are critical:
  - 1. Bridges vic YB 943238 and ZB 156053.
  - 2. High ground vic ZB 0126 and YB 9969.
  - 3. Ridgo-high ground vic YB 9222, ZB Ohl6 and ZB 0011.
- (f) Avenues of Approach: The main avenues of approach into the area are provided by Highway 11m, Route 11m, Route 512 from the west, a newly constructed enemy road twoard HEN HET from the west, and the DAK SIR and DAK HO'DRAI Valleys from the south. A major trail enters the area from the west vicinity YB 730368. (See Appendix 3).
- 1. Highway Lin as far north as TANH CANH is an improved, hard-surfaced, two lane dirt road trafficable to wheeled and heavy armored vehicles except from mid-June to late September when the low areas become impassable. North of TANH CANH it is unimproved dirt road, impassable to vehicular traffic.
- 2. Route 512 enters the AO from the west vicinity YB 7527 and continues to the east through BEN HET and DAN TO to TANH CANH where it meets Highway LLN vicinity YB 063225. This route has generally the same characteristics as LLN, but it is impassable from YB 750270 to YB 802238 due to heavy bombing.
- 3. A newly constructed enemy road enters the AO from the west vic YB 740219 and connects with Route 512 vicinity YB 803238. The road, constructed by hand labor, is hard-packed dirt and averages four to five meters in width. The road follows terrain contours and has no drainage ditches. Due to heavy bombing the road is impassable from YB 784227 to YB 803238. If repairs are made, this route could provide a high speed armor approach to BEN HFT.
- 4. The river valleys from the south provide excellent avenues of approach for infantry movement. Concealment from aerial observation, however, is lacking in many areas.
- (g) Effects of Weather on Terrain: Soil conditions vary from moist and fairly firm in the high mountains to saturated and extremely middy in the central basin area. Thick vegetation and very slick, steep slopes present a definite impediment to foot and vehicular traffic. Many waterways, especially

#### 8. (C) MISSION:

- TF MATHEMS was activated to:
- (1) Conduct reconnaissance in force operations and locate and destroy enemy forces in AO MATHEMS.
- (2) Destroy the 3250 NVA Division in accordance with OPORD 11-68, HQs 4th Infantry Division, dtd 24 May 1968.
  - (3) Protect DAK PEX and BEN HET USSF Camps.
  - (4) Protect " " "O Base Camp.
  - (5) Secure LLOC within 40 MATHESIS.
  - (6) Be prepared to relieve/reinforce 42D ARVN Regiment.
  - b. Letter of Instruction to CG, TF NATHERS is at Inclosure 3.

#### 9. (C) CONCEPT OF OPERATIONS:

a. Task Force MATHERS was formed with 2 brigades in rusponse to the movement of major units of the 3250 NVA Division toward HEN HET USET Camp from the west. To destroy the 3250 Division, let Brigade, 4th Infantry Division attacked on D-Day (27 May 68) with Simultaneous combat assaults by two battalions to secure objective DIGGS (78,731) and objective BAVON (IB 8124).

3d Brigade, 101st Airborno Division, Sillayed at H + 3 hours with a one battalion combat assault to secure objective CANDDELL (IB 8218) southwest of

AVDDH-GC-P

SBJECT: Combat Operations After-Acten Report

13 June 1968

BEN HET. One CSF company began reconnaissance in force at H+2 hours from BEN HET. west northwest toward Hill 705 (YB 8526) to find and destroy NVA weapons positions and assembly areas. 1st Bde continued the offensive on D+1 with a battalion-size combat assault to secure objective CORBS CR. K (YR 8327).

- b. In order to block the TU MRONG Valley approach to DAK TO and T. GAEH from the north, 42d ARVN Regiment deployed one battalion by air assault northeast of DAK TO on D-1 (26 May 58). The 23d ARVF Ranger Battalion was deployed beginning D-1 (26 May 68) to secure FSB's along Rts 512 and the high ground north of D.K TO. Convoy routes were secured by armored cavalry units supported by armed helicopters and air cavalry.
- c. CSF operations at BEN HET and DAK Fork were recordinated with Task Force operations and were integrated into the overall offensive plan.
- d. One battalion, as Task Force reserve, was initially prepared to exploit contacts in either brigade area and/or to secure objective FOSTER (YB 7829) on D+3. 3d Brigade, 101st Airborne was prepared to reinforce DAK SEANG and/or DAT PEK UESF Camps should the enemy threat require.
- e. All offensive operations were supported by B-52 airstrikes and massive artillery preparations prior to assaults by infantry. Immediate tactical air support, B-52 strikes, and artillery were employed throughout Operation MATHINS to neutralize enemy weapons and destroy enemy forces by fire and as close support.
  - f. Inclosure 1, Operations Overlay.
- 10. (C) EXECUTION:
  - a. General.
- (1) Operation MATHONS was initiated by Task Force MATHONS at 24,2000 May 68 with 1st Brigade, 4th Infantry Division and 3d Brigade, 101st Airborne Division under the Command of the Assistant Division Commander, 4th Infantry Division. The area of operations encompassed AO SPAATZ (DAK TO) and AO CH ROKOZ (DAK PO) and included REM HET, DAK SCALG, and DAK PEK USSF Camps. 3d Brigade, 101st Airborne Division closed using C-130 aircraft on 26 May with 3 battalions.
- (?) On 27 May (D-Day) 3d Brigade relieved 1st Brigade of responsibility for the AO east of REN HET. 1st Brigade air assaulted 1th 2 companies. 3d Battalian, 8th Infantry at 1003 hours to secure Objective DIGGS (Hill 900) and with 4 companies, 3d Battalian, 18th Infantry at 1005 hours to secure Objective BAVON (Hill 990). Both objective Market with no analy contact. The command and control aircraft, 3d Battalian (Mr. arathy) year volument fire and made a forced landing south of Objective Market Market Market 1909 and crew were extracted uninjured and continued with a first account. At 1200 hrs (H+2), a Bac H.T CUF company beggn a group at the seconds: At 1200 hrs (H+2), a Bac H.T CUF company beggn a group at the seconds.

.8

AVDDH-(C-P

SUBJECT: Combat Operations After-Action Report

13 June 1968

hrs, 1st Battalion. 8th Infantry under OPCON 3d Brigade, assaulted and secured Obj CARDINAL (Hill 889) with 2 companies without incident. Upon securing initial orjectives, 1st Brigade units began conducting reconnaissance in force toward the Cambodian border with a mission to engage and destroy enemy forces. From Objective CamDINAL, 3d Brigade controlled the southwest approach toward BEAN U.T by conducting extensive reconnaissance and screening operations around Hill 889 and along the approach toward the northeast.

- (3) On 28 May 68 (D+1), 1st Brigade continued to attack with a combat assault by 3 companies, 1st Battalion, 35th Infantra to secure Objective COBBS CRALK and search possible NVA staging or storage areas in the draws west of Ball REF.
- (4) Based on the major threat to DAK PEK which developed on D-Day from units of the 2d NVA Div, 3d Brigade deployed on 28 May 68 (D+1) with a Brigade CP, 2d Battalion, 506th Airborne Infantry. 3d Brigade assumed OPCON of AO CHEROKE, with the mission to protect DAK PEK and to destroy 2d NVA Division forces threatening DAK PEK. With the deployment of the remainder of 3d Battalion, 187th hirborne Infantry on 29 May, 3d Brigade established control of the high ground control of DAK PEK to the west and north and began a series of airmobile combat assaults to exploit B-52 airstrikes and engage 2d NVA Division forces. Airstrikes, artillery, and positioning of infantry on key terrain resulted in the enemy forces withdrawing into LAOS. Upon withdrawal of the major enemy forces, 2d Battalion, 506th Airborne Infantry was deployed back to DAK TO on 2 June.
- (5) After the enemy attack on the 3d Battalion, 12th Infantry morter base at Hill 990 on 30 May, A Company, 3d Battalion, 8th Infantry reinforced Hill 990 and began extensive sweep operations around the base. 1st Brigade continued to push toward the west with 3 battalions searching the ridges and draws along approaches leading from the west.
- (6) 23d ARVN Ranger Battalion and 2d Battalion, 42d ARVN (-), under CCCCN 42d ARVN Regiment; assumed responsibility for the area north of Rte 512 and const of FSB 25 (YB 8829) beginning 28 May. 42d ARVN Regiment retained responsibility for securing FSB 13 (YB 9125), FSB 3 (YB 9523), FSB 30 (YB 9726), and maintaining one company on the ridge north of DAK TO.
- (7) On 1 June 68, 1st Battalion, 22d Infantry assaulted with three companies to secure Hill 905 (YB 7921) and block the southwestern escape route from BEN HET, FSB 29, and FSB 15. The battalion conducted reconnaissance in force northwest to Hill 947 (YB 7724) and operated astride a well used NVA route from Cambodia. Po enemy contact was made.
- (8) On 3 June 68, 2d Battalion, 506th Airborne Infantry, under 1st Brigade control, secured Hill 1943 (YB 3332) with an air assault and began reconnaissance operations northwest to Hill 1191 then southwest to FSB 18 (YB 8531) and west to search the DAK SU Valley approach toward BEN HET. No contact was made with the enemy.

AVDDH-GC-P SUBJECT: Combat Operations After-Action Report 13 June 1968

- (9) As the 1st Brigade maneuvered to search the routes and suspected assembly areas between BEN HaT and the Cambodian border, it was apparent that the 3250 Division had withdrawn from the battle area toward the west. Light contacts with small NVA covering forces were made and several battalion sized bases were secured and contaminated with CS chemical.
- (10) The 4th Infantry Division offensive west of POLEI KLAG required that TF MATHE'S release ist Battalion, 35th Infantry to 3d Brigade, 4th Infantry Division on 5 June.
- (11) On 8 June 1st Brigade assumed responsibility for AO CH ROK is and deployed the 1st Battalion, 22d Infantry to DAK FLK to relieve the 3d Battalion, 187th Airborne Infantry. 3d Brigade began deployment out of AO NATHERS by airlifting the advance party with five C-130 sorties. 3d Battalton, 187th Airborne Infantry departed on 9 June with the brigade CP followed on 10 June by 2d Battalion, 505th Airborne Infantry. 1st Brigade resumed responsibility for all of AO SPARTZ and completed pursuit operations to within 3 Kms of the border.
- (12) Based on intelligence that a battalion of the 3250 Division had moved to vic (YB 8513), 1st Battalion, 8th Infantry assaulted 2 companies to YB 8213 and 2 companies, 1st Battalion, 506th Airborne Infantry to FSP 28 on 9 June. All companies, under control of 1st Battalion, 8th Infantry, conducted a detailed bomb damage assessment of six B-52 strikes that preceded the combat assault. Although recently used enemy bunkers and positions were located and searched, no contact was made nor were bodies or weapons found.
- (13) Early morning on 10 June an attack on DAK Pok by NVA forces began with a battalion sized ground assault supported by mortars and rockets against the 1st Battalion, 22d Infantry FSB'S. The 1st Battalion, 506th Airborne Infantry remained under Task Force control as 3d Brigade (\*) departed the AO. 3d Battalion, 8th Infantry reinforced AO CHEROKEE on 10 June and detablished positions both inside and northwest of DAK POK Camp, Over the 46 hour period that followed, intense indirect fire attacks were received by friendly installations in AO CHEROKEE.

  B-52 strikes were employed on enemy positions and again the enemy withdrew to LLOS. Combat assaults followed by reconnaissance and pursuit operations were conducted throughout AO CHEROKEE to discover and defeat any remaining enemy forces.
- (14) The threat of DAK P.K. HEN ALT, and DAK TO diminished and at 121500 June 68, TF MATRES was deactivated and control of tactical operations in the DAK TO and DAK P.K areas reverted to 1st Brigade, 4th Infantry Division.

- b. Artillery Support
- (1) General.
- (a) The concept of artillery employment was to provide direct artillery support to each maneuver element and to employ the relatively large amount of medium and heavy artillery in reinforcing and general support roles to weight maneuver efforts and to provide artillery support for ARVA operations.
- (b) Initially, the 6th Hattalion, 29th Artillery was in direct support of the 1st Brigade, 4th Infantry Division. Battery C, 4th Bottalion, 42d Artillery (105mm T), Battery C, 2d Battalion, 9th Artillery (105mm T), Battery A, 5th Battalion, 16th Artillery (155mm SP), and Batteries A and C, 1st Battalion, 92d Artillery (155mm T) reinforced its fires while Battary D, 5th Battalion, 15th Artillery and Battery B, 6th Battalion, 14th Artillery were in general support. 3d Brigade of the 101st Abn Div deployed to 4th Div control with its direct support artillery, the 2d Battalion, 39th Artillery (105mm T), which arrived on 24 and 25 May. Additional artillery (155mm SP) closed on 26 May and Bettery C, 5th Battalion, 22d Artillery (175mm SP) arrived on 28 May.

AVDDH-GC-P

SUBJECT: Combat Operations After-Action Report

13 June 1968

- (2) DIVARTY established a Division Artillery Tactical Command Post at DAK TO Pase on 25 May to coordinate artillery activities in the battle area and to insure maximum effectiveness in the allocation of general support artillery fires.
- (3) Artillery units conducted 24 displacements to support tactical operations initially west of DAK TO and then north to DAK PEK.
- (4) Extensive use was made of radar. Three (3) AN/MPO-4A counter-mortar radars were employed in the DAK TO, DAK POK and BEN HET areas. This aggressive use of Q-4A radars resulted in detection of 48 mortar locations and one 122mm rocket location. One AN/MPQ-10A counterbattery radar was flown into the AO from TUY HOA and transported to a forward fire base by CH-54 on 2 June to counter the threat of enemy artillery detected on 30 May west of DAK TO. The AN/TPS-25 ground surveillance radar organic to Division Artillery was displaced by air to a forward fire base in the DAK TO area. The TPS-2MA radar located seven groups of personnel identified to enemy ranging in size from 3-21 personnel. These targets were engaged with artillery.
- (5) Meteorological support was fundahed continuously throughout the operation.
- (6) Maximum use was made of air observation. Division Artillery was augment ed daily by aircraft from 52d Artillery Group.
- (7) Assigned, attached and operational control units during Operation MATHEWS are as follows:

(a)	6-29 Arty	(105 T)	DS	1st Bde, 4th Div
(b)	2-319 Arty	(105 T)	DS	3d Bde, 101st Abn
(c)	C/4-42 Arty	(105 T)	D3	1st Bn, 22d Inf
(d)	C/2-9 Arty	(105 T)	DS	1st Bn, 35th Inf
(e)	A/5-16 Arty	(155 SP)	CISTR	6-29 Arty
<b>(1)</b>	C/5-16 Arty	(155 SP)	CISTR	6-29 Arty

13 June 1968

(8) Summary of ammunition expenditures by caliber.

27,037

(a) 105mm

(b) 155mm 12,966

(c) 8" 1,560

(d) 175mm 4.076 GRAID TOTAL 45.639

- (c) Air Support.
- (1) Task Force MATHEWS TACP controlled tactical fighter-bombers and long-range heavy bombers for ground elements of the Task Force.
- (2) The existing TACP of 1st Brigade, 4th Infantry Division was augmented by three Forward Air Controllers, three O-IG aircraft, a radio control 1/4 ton vehicle, and four enlisted men. This composite TACP was the coordinating agency for USAF assets in AO NATHEWS.
- (3) Initial organization of the Air Request Net was that all 1st Brigade, 4th Division G3 immediate and preplanned strikes went through normal channels to Division G3 Air at Camp Enari. 3d Brigade, 101st Airborne request immediate strikes from TF TACP at DAK TO who then relayed the request to IFFV and was monitored by Div G3 Air by telephone. Sorties assigned to fill these request were controlled by Forward Air Controllers from 1st and 2d Brigade, 4th Infantry Division because of the performance limitations of the 0-1 aircraft assigned to 3d Brigade, 101st Airborne. ALO, 3d Brigade, 101st Airborne Division provided liaison between the brigade and HQ, TF MATHEMS.
- (4) The Air Request Net was modified on 28 May when 3d Brigade, 101st Airborne deployed to DAK PEK. The mobile TACP of 3d Brigade, 101st was air-lifted to DAK PEK and processed immediate requests for tactical operations within AO CHEROKEE. Preplanned missions continued to go directly to Div G3 Air. In addition, radar-guided Combat Sky Spots (CSS) were used to deliver Tac Air Support during inclement weather and for night missions.
- (5) All preplanned strikes were backed up with CSS strikes because weather changed rapidly during the operation. These backup missions were often flown instead of cancelling a flight of fighters.
- (6) Weather conditions adversaly affected Tactical Air Support during Operation MATHEMS. Low cloud cailings and morning fog associated with the South-west Monsoon combined to limit MAC missions to the late morning and early afternoon hours on approximately 16 days during the period. A total of 40 proplanned FAC missions were diverted to CMS status because of unfavorable weather conditions in the target area.

AVDDH-GC-P
SUPJECT: Combat Operations After Action Report

13 June 1968

- (7) Summary of air support flown is as follosw:
- (a) Fighter missions-309
- (b) Fighter sorties-661
- (c) Spooky/Moonshine-8/1
- (d) Summary of Damage Assessments-33 bunkers destroyed, 2 foxholes destroyed, 4 active AAA positions destroyed, 1 recoiling rifle position destroyed, 35 NVA KIA (9 BC), 21 secondary explosions, 2 landing zones constructed.
- (8) ARCLICET STRIKES: Arclight strikes contributed more significantly to the success of Operation MATHEMS than to any previous 4th Infantry Division operation. Employed in mass for the first time in this area of operations and closely coordinated with the scheme of maneuver and other supporting fires, they were a major factor in the attrition of enemy forces. Since employment varied between the DAK TO, BEN HET and DAK PEK areas, they will be described separately.
- (a) DAK TO BEN HET: The concept of operation in this area called for the numerically inferior allied forces to occupy the critical terrain in the area in strength, concentrating the Division Reconnaissance Fackage in the area to find targets for exploitation of the friendly preponderance of fire power. Once located, targets were attacked by massed fires of all appropriate types, including Arclights. This phase of operations employed 39 Arclight strikes. After massive attrition of the enemy forces, and the arrival of additional maneuver forces in the area, simultaneous air assaults were to to made in the enemy's rear to complete his destruction. These assaults were preceded by a massive five day Arclight, tactical air, and artillery proparation in the area known to be occupied by major elements of 3250 NVA Division. During this five day period there were 29 strikes, culminating in five on D-Day on the immediate objectives of the combat assaults. These assaults were made as scheduled, even though on D-Day events in the D.K PEK area required diversion of significant meneuver forces to that area. Although large and determined enemy elements were known to have been present in the objective area prior to the preparation phase, US Forces were able to complete three battalion air assaulte into sold landing somes on D-Day without loss of a single US soldier. In operations following the US attack, Arclights continued to be used in mass to complete the exploitation and to neutralize enemy fires. A total of 20 targets were attacked during this period, bringing the total for Operation MATMENS in this area to 88.
- (b) DAK PEK: Arelight strikes were employed in the DAK PEK area to blunt a major enemy thrust at the isolated CSF comp and to provide reaction time for reinforcement of the defence. There were two separate phases of this operation, 23 to 31 May and 11 to 14 June. Teek Porte MARRIPS reacted to indications from a reliable intelligence would that major entary forces were threatening the DAK PEK CSF comp. During the esclier period, a total of 11 Arclights were employed, and despite reliable indications of the enemy apparently withdraw. From 11 to 14 June, after withdrawal of the bulk of the US Forces, the enemy again threatened the comp this time in strength. During this period, 20 Arclight targets were

AVDDH-GC-P

SUBJECT: Combat Operations After-Action Reports

13 June 1968

struck. Despite indications of a major enemy effort to overrun the camp, he was able to make only one ground attack on friendly positions and ineffective attacks by fire. In this operation, because of comparative lack of artillery support and poor weather conditions for tactical air support, Arclight support was especially significant.

(c) In summary, it is apparent that the mass employment of Arclight strikes played a major role in the decisive defeat of elements of two N/A Divisions in Operation MATHEWS. Although attensive efforts were made to assess bomb damage, no single target strike could be proved to have produced dramatic results. Taken in sum, however, the evidence of their effect is conclusive. The enemy made a major effort during this operation, moving large forces for long distances to mass them against numerically inferior US forces, he introduced more sophisticated weapons systems than had been previously used in the Central Highlands, including artillery, and probably armor. Despite this major effort the enemy achieved not one minor objective, but paid a staggering price in casualties and damage. Friendly casualties were comparatively very light considering the results achieved. The large number of Arclights were massed in a relatively small area where the enemy forces had to assemble to attack their objectives, and they were never able to organize a sustained attack.

#### d. Army Aviation Support.

- (1) Aviation support for Operation NATHEWS was provided by the organic 4th Avn Battalion and the 52d Combat Aviation Battalion. Missions were assigned by the Task Force Aviation Officer to support combat operations.
- (2) Task Force MATHEMS employed an average of 24 UH-lhs, 6 UHLCs, 6 CH-47s, and 1 CH-54 per day. This represents the normal commitment of two (2) Assault Helicopter Companies and one (1) Assault Support Helicopter company. These aviation resources conducted an average of two (2) combat assaults, one (1) extraction and one (1) secure lift daily.
- (3) The following is a summary of operational data and support furnished to TF MATHEWS by the combined assets of the 4th Avn Battalion and the 52d Combat Aviation Battalion.

		<u>UH-1D/H</u>	UH-1C	CH-47	<u>CH-54</u>

- e. Engineer Support
- (1) Direct support was furnished to the Task Force by Company A, 4th Engineer Battalion and Company B, 326th Engineer Battalion who supported 1st Bde, 4th Infantry Division and 3d Bde, 101st Abn respectively.
- (2) Company D, 299th Engineer Battalion, augmented by Headquarters and Headquarters Company 299th Engineer Battalion, provided general support to the Task Force.
- (3) Company A 4th Engineer Battalion provided direct support for the infantry and artillery battalions of 1st Brigade, 4th Division performing LZ clearing missions, cleared fields of fire, and provided technical assistance for barrier installation. Also, Company A operated a 1500 gallon-per-hour water purification point at 1st brigade base camp, and installed and operated a 600 gallon-per-hour unit and BEN HET Special Forces Camp. Daily minesweeps on Hwy 512 were also conducted by Company A. Heavy epuipment was airlifted to previde support missions for the TF and a large TOC was built for HQ, TF MATHEWS at DAK TO Base. An emergency ASP/POL storage facility was constructed at DAK SEANG Special Forces Camp to support tactical operations in the DAK PEK area.
  - (4) Company B, 326th Engineer Battalion provided direct support to the
- 3d Brigade, 101st Airborne, Infantry Battalions and DB Arty Bettalic. Majer elements of Company B deployed with the brigade to DAK PEK, where the company constructed fire support bases, as well as berse for three POL storage areas and three ammunition points. In addition, a 1500 gallen-per-hour water purification unit was installed and operated at 3d Brigade Base Camp and a 600 gallen-per-hour unit at DAK FEK
- (5) Commun D and Headquarters Company, 299th Engineer Battalion (Combat) provided general support to both brigades and to the Task Force. Prierty was given initially to construction of a base case for the 3d Brigade, 101st Airborne, consisting of a brigade TOC and Artillery TOC, four helipads using MSA1 matting, two belicopter revetments, establishing drainage control, dozing out offensive positions, clearing fields of fire and providing technical assistance for the establishment of a tastical wire barrier system. Also, elements of Company D assisted with Engineers to conduct minesweeps on Hwy 512. A 1500 gallon-per-bour water point was operated at DaK TO Base in support of the Bask Force.

#### f. Signal Support

- (1) The 124th Signal Battalion provided communications support for Operation MATHEMS, and established communications with the following major units:
  - (a) 4th Inf Div Mein

16

- (b) 1st Bde, 4th Inf Div
- (c) 3d Bde, 101st Abn Div (modified area signal center)
- (d) 4th Inf Div DIVARTY (TAC)
- (2) Multicharnel VHF systems were activated on 25 May from 4th Infantry Division Base Camp to the 3d Brigade, 101st Airborne Division at DAK TO I airstrip, and from Task Force MATHETES CP at DAK TO Base to 3d Bde, 101st Airborne Division at Dak To I.
- (3) Upon deployment of HQ, 3d Bde, 101st Abn and 2 battalions to DAK PEK, a VHF relay and FM relay station were planned for. This was necessary because both the DAK TO Bese and DAK PLK Special Forces Camps are virtually inaccessible to VHF and direct FM communications. On 29 May, FM relay was established with DAK PEK. The multi-channel systems, however, encountered many difficulties which included airlift of equipment, frequency problems, equipment problems, and non-line-of-sight-path.
  - g. Payop Support
- (1) Psychological operations were conducted in conjunction with tactical operations to create dissatisfaction and desertion among NVA units.
- (2) A total of 108 PSYOPS missions were flown in support of Task: Force MATHEWS. These missions dropped 2,200,000 leaflets and made 140 hours of aerial loudspeaker broadcast. In addition, a total of 82 hours of live broadcast were made. Target areas were known and suspected enemy locations and infiltration exfiltration routes.
- (3) During the operation, three NVA soldiers rallied to US units. These individuals provided unit identifications, personalities and locations that were promptly exploited by PSIOPS teams. The CHIEU HOL wrote leaflets and made tapes urging their comrades to rally.
- (4) All of the ralliers told that their reasons for rallying were B-52 strikes, suffering, and life in the jumgle.
  - h. Civic Action Support
- (1) The civic action program already underway in AO SPAATZ was continued with efforts aimed at improvement of health, sanitation and living conditions.
- (2) Eighteen villages in AO MATHEMS were selected for the Civic Action Program. A total of 154 visits were made, in addition to 1450 MEDCAP visits. A total of 5293 children participated in the Youth Heelth Program. Diagnostic examinations by the surgeons of both brigades were provided to approximately 182 people in villages in the AO.
  - i. Chemisal Support
  - (a) CS Operations:
- (1) During the period Operation MATHEM'S chemical operations consisted mainly of contemination of bunker complex using permistent CS-1.

TO CONFIDENTIAL

Assuming normal wiather conditions for this time of year it is felt that this contamination should last for at least 6 months. It is estimated that more than 200 bunkers were contaminated using this method during the operation.

- (2) The E-8 Tactical CS Launcher was used extensively on firebase perimeters during the operation. The E-8 was used on several occasions to assist in repelling NVA attacks on such installations. The 4th Division Chemical Section provided the 3d Brigade, 101sth Airborne Division with 60 E-3s. These items were used on defensive perimeters throughout their AO.
- (3) A bulk C8 drop was conducted north of CHEROK by USAF using C-130 aircraft and 500-800 found drums of CS. The purpose of this drop was to contaminate the NVA road which enters SVN vicinity of YB 893858.
- (4) E-158 (IM-15) munitions and the newly developed BFGG (Box Full of Grenades) were used to prem LZs prior to combat assaults. In addition, the 1st Battalion, 8th Infentry used the BFGG extensively throughout the operation.
- (5) During the period of Operation MATHEWS the following munitions were issued by the Division Chemical Section to units participating in the operation:
  - 122 E-8 Tactical CS Launcher
  - 50 Boxes of JEEPCS (2000 pounds)
  - 12 E-158 (M-15) Tactical CS Clusters
- 12. (C) RESULTS

#### 13. (C) ADMINISTRATIVE MATTERS

#### a. General.

- (1) The concept of logistical support of Task Force M THEMS followed the previously established concept of logistical support of operation MacCARTHUR. The battalions logistical bases were co-located with the brigade's trains at DAK TO. The let logistical Command Forward Support Activity (FSA) at DAM TO continued providing Class I, III, IIIA, V, barrier materials, bath, laundry, and graves registration to the units. Class II & IV materials, less barrier, were provided from CAMP ENARI through established supply channels. Organic elements from the Division Support Command (DISCOM) provided medical support, maintenance support, and a direct exchange for personal clathing.
- (2) Resupply of forward company and battalion in a bases was by UH-ID, CH-47 and CH-54 helicopters from the battalion logistical bases at DAK TO. Resupply of the FSA at DAK TO was primarily by overland convoy from PLEIKU Sub Area Command utilizing from of the Divisions arganic vehicles as augmentation.
- (3) To continue the previous concept of providing supply point distribution as far forward as possible and also to provide an emergency resupply begistical base, a small resupply point consisting of Class I (C-Rations), III, and V was established at DAK PEK. Resupply of this area was CH-47. CH-54, C7A Caribou, and C-130 air drop. Due to retrictions placed on the use of CH-47 for resupply during the latter stages of the operation, another emergency resupply logistical base was established at DAK SEAR. Resupply of this area was by C-130 air drop.
- b. Material and Services: The majority of the supplies consumed during Operation MATHRES were issued through the FSA at DaK TO. In order to provide the required logistical support, the providently established supply levels and objectives at the FSA had to be increased.
  - (1) Supply summery for Operation Milans.
  - (a) Cines I: Necle impets

- (c) Class V: Tons issued: 3,343.89.
- (2) Services.
- (a) Laundry and Bath Services rendered during the period:

HAUNDRY - 24,200 lbs
BATHS - 5,825 individuals

- (b) Direct Exchange Point services for the operation were 1,000 sets of fatigues and 25 pairs of boots.
- (c) Graves Registration service was provided by Lst Logistical Command through the FSA at DAK TO.
  - c. Maintenance.
- (1) Forward support of Task Force MATHEWS was provided by Company C, 704th Maintenance Battalion operating from the brigade trains at DAK TO.
- (2) Headquarters and Company  $A_0$ , 704th Maintenance Battalion provided back-up support for all units and a technical supply base for all units at CAMP ENARI. In addition, contact teams were augmented with personnel and equipment as required.
- (3) During the operation, 330 work orders were processed for maintenance requests.
  - d. Medical Support.
- (1) Company B, 4th Medical Battalion provided a forward clearing station at DAK TO in support of Task Force MATHENS. The station consisted of approximately 40 personnel and provided an admission and disposition facility, a medical ward, one medical laboratory and communication ground evacuation, treatment and dental sections.
- (2) The 4th Medical Battalion (-) provided medical service and manned the rear clearing station at CAMP ENARI. The 39th KJTeam provided necessary dental support.
- (3) Army level supporting facilities consisted of the 18th Surgical and 71st Evacuation Hospitals located at PLERU.
- (4) The 2d Platoon, 32d Medical Depot, located in QHI NHON, furnished medical supplies and maintenance support.
  - (5) Summary of medical services provided by the clearing section at DaK TO

(a)	Patients seen:	1652

  - (g) Sleeping bags: 70
  - (h) Chair, folding: 25
  - (i) Tables, folding: 15
- 14. (C) SPECIAL EQUIPMENT & TECHNIQUES.
- a. A flash and radar Information Coordination Center was established by Division Artillery survey personnel which combined the infermation from visual ebservation posts and radar locations for target data.
- b. Selected munitions were employed extensively on suitable targets during the period. Examples are:
- (1) On 30 May, Hill 990 (YB 8124) received a ground attack. Firecracker was employed in and around the perimeter with nine (9) artillery batteries firing in support. A sweep on 31 May revealed 43 NVA KIA, 25 by artillery. Numerous blood trails and drag marks were also found in the area.
- (2) On 1 June, an aerial observer sighted four 100mm field pieces in dug-in positions. Fire was adjusted resulting in 2 guns destroyed and a large secondary explosion. VR on 2 June revealed 4 NVA bedies still in the open. Fire tracks in the area indicated that the weapon and bodies had been recovered during the night.

.: 5.5

#### (3) Firecracker expenditure:

Caliber	Firecracker
105	472 rds
15.	126 rds 5 rds

#### 15. (6) LESSONS LEARNED AND RECOMMANDATIONS:

a. Operations

Item: Control of Army Aviation

Discussion: Operation MATHEWS utilized almost an entire CaB (Combat Aviation Battalion) on a daily basis and these assets were employed in an extremely large area of operations. The Task Force Aviation section had two (2) FM radius to control the Aviation elements during the day. The majority of aviation resources were provided by the 52d CAB and the 52d retained command of the aviation elements. This arrangement resulted in unacceptable response time to requirements that arose during the day. In addition the TF Aviation section was unable to function as a staff planner/coordinater because they were involved in minute-to-minute control of aircraft assets.

OBSERVATION: At a minimum, a forward CP of an aviation battalion is required to centrol aviation assets and effectively coordinate with the supported brigades. Additionally, this control element should be equipped with a MRC-119 († Ton) which would provide UF, VHF, ssb, and FM communications. This would permit the TF Aviation Section to function in a planning/coordination role and provide immediately responsive command and control of the aviation units supporting to TF.

Item: Massing Arc Lights

Discussion: Are Lights were employed in mass for the first time in the Division Area of Operations and were closely coordinated with the scheme of maneuver and other fire support means. These strikes proved to be a major factor in the attrition of enemy forces and caused him to abandon his mission of overrunning friendly positions at DAK PEK and in the D.K TO-BEN HET area; Although single are lights had been planned on enemy targets previously, the grouping of several are lights in one area and ever short time spans created a devastating effect on the enemy.

Observation: When the enemy gives indications of massing for an attack, Arc Lights should be messed in order to gain maximum advantage of the srikes.

b. Logistics

Rem: Need for Airmondle Bulldosers

Discussion: Tactical operations in the Central Highlands require frequent use of key terrain features for Fire Support Bases. The need to move heavy engineer construction equipment to isolated areas is apparent. High altitudes coupled with the monseon season, reduces the lift capability of the CH-54 and restricts air transport of the D5A and D6B to the forward fire bases. The D6B with adapter kitvia acceptable and would allow a regular reduction; however, the D6B with kit is not erganic to the Division.

Requests for this equipment are submitted to IFFV and further to the 18th Engineer Brigade.

Observation: Two D6B with adapter kit should be made an MTOE addition to 4th Engineer Battalion to increase responsiveness to tactical requirments.

SUBJECT: Letter of Instruction

Brig Gen Don R. Hickman Assistant Division Commander-A 4th Infantry Division

- 1. You are designated Commander of Task Force Mathews effective 241800 May 1968.
- 2. Task Force Mathews will consist of your Task Force Headquarters and the following major units:
  - a. 1st Brigade 4th Infantry Division.
  - b. 3d Brigade 101st Airborne Division.
  - c. Attached artillery and other supporting units.
- 3. You will be the Tactical Commander of the designated forces and directly responsive to the undersigned. You are charged with the responsibility of conducting operations within your assigned area of operations as directed by this headquarters.
- 4. Your initial mission is to destroy the 325C NVA Division in accordance with OPCED 11-68 Hq 4th Inf Div, dated 24 May. A collateral mission is to protect the Special Forces Camp at Bon Het and the 4th Division Base at Dak To. Additionally, you are charged with the logistical support of the DB 155 arty elements at Dak Pek.
- 5. Direct liaison and coordination with ARVN and other US agencies and forces not assigned to your OFCCN is authorised and directed.

#### CHRONOLOGICAL SUMMARY OF SIGNIFICANT EVENTS

#### OPERATION MATHEWS

- 24 May

  HQ, TF Nathews moved to Dak To and became operational at 242000H

  May 68. 3d Battalion, 8th Infantry FSB moved from YB 971267 (FSB

  #30) to YB 883291 (FSB #25) and 1st Battalion, 22d Infantry moved

  from Dak To Base (ZB 004217) to replace 3d Battalion, 8th Infantry

  at YB 971267 (FSB #30). 1-506 Infantry and 3d Brigade, 101st Abn

  Tac CP closed Dak To at 1525H. Upon arrival, HQ, 1st Battalion, 506

  Infantry moved to YB 988153 (FSB #6) and assumed control of Rocket

  Ridge.
- At 1015 vic YB 892270, C/2-1 Cav made contact on Hwy 512, receiving SA and BhO fire. Gunships were on station. At 1820 contact was broken. Results: 3 US KIA, 6 US WIA, 47 NVA KIA. At 1630, Ben Het received 13 rds 82mm mortar from the west, landing cutside their perimeter. At 1915 hrs, vic YB 839222, FSB #29 of 1st Battalion 8th Infantry began receiving 75 Receilless and 82mm fire and at 2000 they were assaulted by an estimated NVA Battalion from the south and west. Fighting continued throughout the night. Spocky was employed and drew ground fire. The NVA attack penetrated the perimeter and the enemy still held 2 bunkers at Chips. Results: 1h US FIA, 55 WIA, 47 NVA KIA. PWs confirmed the 101D NVA Regiment of the 325C NVA Division conducted the attack. During the attack on FSB #29, two nearby FSRs were mortared, one of them with CS.
- At 0550, Dak To Base was attacked with 122mm rockets, however no casualties were inflicted. At 1335, FSB #29 (YB 339223) was still receiving 75mm Recoilless Rifle fire. 7-17 Air Cav observed the postition and directed an airstrike on it. 3d Bde, 101st Abn Division closed Dak To at 1402 hrs, with a total of 122 serties of C-130.
- At 0020, 1st Battalion, 8th Infantry FSB #15 (YB 854187) received 6 rds of 82mm mertar fire. InD Companies, 3d Battalion, 8th Infantry and A, B, C and D Companies, 3d Battalion, 12th Infantry conducted heliborn assaults to begin the attack northwest of Ben Het (YB 873257). At 1255 A Company, 3d Battalion, 8th Infantry exchanged fire with 14-5 NVA at YB 872294 with negative results. At 1035 hrs at YB 814248, A Company, 3d Battalian, 12th Infantry made contact with an unlineum size enemy force. Results: 2 US WIA, 10 NVA FIA. At 1604, CSF Ben Het contacted an estimated MVA Company in bunkers. Tac Air and artillery were employed. 3d Brigade, 101st Abn was alerted at 2230 to move 2d Battalian 506th Infantry to Bak Pak (YB 953580).

#### CG. INTIAL

- At 0237, FSB #29 (YB 839223) received 20-22 rounds of mixed 60-82mm morter fire that resulted in one US KIA and 2 WIA. At 0645, the advance party of 3d Bde, 101st Abn departed Dak Tc enroute to Dak Pek. B Company, 2d Battalion 505th Infantry began moving to Dak Pek at 0820 by CH-37 and C-7A. One section of 155mm Arty (A/1-92) and one 105mm (B/2-319) battery moved to Dak Pek and closed at 1120 hrs. At 1010 hrs, a FAC aircraft crashed at Dak Pek Airstrip due to power failure. The pilot was evacuated to Dak To. A, B, & C Companies 1st Battalion, 35th Infantry combat assaulted to YB 835280 to continue the attack northwest of Ben Het, Light contact was made near the LZ with an unknown size enemy force.
- At 0900, lst Battalion 8th Infantry FSB #29 (YB 839223), received 6 rounds of 60mm mortar, all outside the perimeter. Airstrikes on the suspected mortar location produced a large secondary explosion. 3d Battalion, 187th Abn Infantry completed airlift to Dak Pek at 1215 hrs. At 1410, a squad from C Company, 1st Battalion, 22d Infantry exchanged fire with an estimated NVA squad vic YB 928268. C Company reinforced the squad and employed Tac Air and artillery. HQ, 1st Battalion, 22d Infantry moved from FSB #30 (YB 971267) to Dak To Base. They were replaced by one company, 23D ARVN Ranger Battalion. The move was complete at 1020 hrs.
- D Company, 3d Battalion, 12th Infantry in their night defensive position on Hill 990 (YB 6.82h7) began to be probed at 0230. By 0300 the company was receiving small arms and mortar fire in increasing intensity. At 0330 Spooky arrived to support the contact. At 0500, an estimated NVA battalion launched a ground assault from the north, south and west. Contact tapened off by 0530 but snipers continued to harass the position. Besults: 7 US KIA, 56 WIA, h3 NVA KIA. Throughout the day, Hill 990 and 3d Battalion, 12th Infantry FSB #29 (YB 839223) received a total of 100 plus rounds mixed 120mm mortar, 105mm howitzer and 75mm Recoilless Rifle fire. A Company, 3d Battalion, 8th Infantry was nirlifted to Hill 990 to reinforce, however the NVA attempted to interdict the lift with 105mm and 75mm Recoilless Rifles. Reinforcement was completed at 311h30 May. At 12h0 hrs, E Company, 3d Battalion, 12th Infantry outpost observed h NVA approaching their position. Results: 1 NVA VIA, 3 fled to the north.
- At 0012 0451 in Bestalion, 8th Infantry FSB #25 (IB 887291) received total of 17 rounds of 62mm morter fire, all outside the perimeter. At 0247 A Company, let Battalion, 506th Infantry located at FSB #5 (IR 935188) received 35 rounds 62mm morter fire from the southwest, all of which landed cutside the perimeter. From 0655-1043, Company D, 3d Battalion, 12th Infantry on Hill 990 received approximately 12-15 rounds 62mm morter fire, one round of which set off morter assumition that was stored in a bunker. Besults: 11 US WIA. At 1800 vic ID 865178, an H-23 balicopter break landed for unknown reasons. The crew was extracted at 1830 hours.

1 June

During the first lift of Company A, 1st Battalion, 22d Infantry's combat assault to YB 791219, a UH-1H crashed into the IZ requiring elements be inserted into the alternate IZ. The crew was extracted with 1 individual injured. At YB 855268, Company D, 1st Battelian, 8th Infantry found two NVA bodies estimated to be two-three menths old. At YB 886296, Company C, 3d Battalion, 8th Infantry found one NVA body estimated to be one month old. At YB 876293, Companies B and D, 3d Battalion, 8th Infantry captured one NVA who identified his unit to be the 18th Transportation Battalion, 101D Regiment, 3250 NVA Division. Two Hoi Chanhs walked into FSB #25 at YB 887291. One US was wounded from Company A, 3d Battalion, 12th Infantry when FSC #29 (YB 839223) received 60 rounds of suspected 100mm artillery fire. At YB 828206, a patrol from Company B, 1st Battalian, 22d Infantry exchanged small arms fire with seven NVA. The patrol withdrew and artillery was employed, while one US was wounded. At YB 841212, the Reconnaissance Platoon, 3d Dattalion, 12th Infantry found one NVA KIA estimated to be three days old. At 1421H, a Hoi Chanh walked into FSB #29, identifying his unit as 4th Battalion, 102d Regiment, 3250 NVA Division. At YB 830193, the Aero-Rifle Platoon from Troop B, 7th Squedron, 17th Air Gavalry recovered two US MIA from downed light observation halicopter of 24 May, Individuals were confirmed KIA. At the same location, the Aero Rifle Platoon observed ten NVA KIA estimated to be two-three days old. HQ, 1st Battalian, 22d Infantry moved from Dak To base to FSB #12 (Nen Het) closing at 1405 hours.

2 June

At YB 808278 Company A, 1st Battalion, 35th Infantry Battalion received 25-30 rounds of 82mm mortar fire resulting in two US WIA. At YB 884303, Company B, 2d Battalion, 506th Infantry (Airborne) made contact with an NVA platoon in bunkers. The enemy employed small arms, automatic weapons, unknown type mortars, and 75mm recoilless rifles, wounding 11 US while ten NVA were killed. At YB 846221 the Reconnaissance Platcon from 3d Battalion, 12th Infantry found one NVA KIA with two B-41 rocket Jaunchers and seven B-40 rockets. Later, the same Reconnaissance Platoen found one NVA killed by artillery at YB 847223. A patrol from Company A, 3d Battalion, 12th Infantry found two NVA bodies at YB 839223. The CP of the 3d Bde, 101st Abn and the 2d Battalian, 506th Infantry (Abn) (-) moved from Dak Pek to Dak To Base, closing at 1750 hours.

3 June
